SUMMARY

Hi, my name is Tham (*), and I am a web developer with 4 years of experience in Ruby on Rails. I have a strong understanding of Object-Oriented Programming and Database Design, and I'm always eager to learn new languages and technologies. One of my strengths is my ability to work well within a team. I enjoy collaborating with others and helping my teammates whenever I can. I also have experience mentoring junior developers and conducting code reviews to ensure that our team's codebase meets high standards. I am passionate about creating high-quality web applications that provide value to users. I am always looking for ways to improve my skills and contribute to the success of my team and the projects we work on.

OBJECTIVE

My goal is to collaborate with cross-functional teams to ensure that the applications meet business requirements and provide a seamless user experience. I am committed to continuously improving my skills and staying up-to-date with the latest trends in web development, while also contributing to the growth and success of the organization.
